

FloraFlex[®] | MIXING INSTRUCTIONS

The logo for FloraFlex Nutrients is positioned on the left, with the text 'FloraFlex' in a bold, black, sans-serif font and 'Nutrients' in a lighter, grey, sans-serif font below it. To the right of the logo, a vertical line separates it from the text 'MIXING INSTRUCTIONS', which is in a large, bold, black, sans-serif font.

V1[™] & V2[™]

- First mix V1[™] in your water source, allowing it to completely dissolve
- Next add V2[™]
- Depending on your desired EC use 1-2 teaspoons per 5 gallons of water (1-2g per gal)

B1[™] & B2[™]

- First mix B1[™] in your water source, allowing it to completely dissolve
- Next add B2[™]
- Depending on your desired EC use 1-3 teaspoons per 5 gallons of water (1-3g per gal)

Water should not be below 65°F. For best results a recirculation pump is recommended.

The background of the page features a light green, semi-transparent silhouette of a cannabis plant, showing its characteristic serrated leaves and flower buds, which are scattered across the entire page.
